Should you lose or damage the BeoVision MX 8000 CD-rom, the information can also be found on the Bang & Olufsen web-site;
www.bang-olufsen.com
or you can contact your retailer.

An explanation of symbols in the guides

The illustration below shows what a button, source or status display looks like in the instruction sequences used in the guides.

TV **LIST** ▲ ▼	Buttons on the Beo4 remote control
STORE	Display on the Beo4 remote control
TV 12	Display on the BeoVision MX 8000

The User's guides

This **Guide** contains information about daily use, more advanced operations as well as basic setup and maintenance of your product.

The **CD-rom Reference book** contains information about connecting loudspeakers, adjusting loudspeaker setup, connecting external equipment, connecting an audio system and setting up and operating a BeoLink® system. It also contains an overview of on-screen menus.

Both guides contain an index which can help you find the specific subject, you want to know more about.

We expect that your Bang & Olufsen retailer delivers the product to your home, installs it and makes all necessary connections as well as the initial setting-up. However, the information required to install and set up the product is included in the guides in case you need it at a later date if for example you move your products or expand your system.

The Reference book is a file in PDF-format on the enclosed CD-rom. To read this PDF-file, the Acrobat Reader program must be installed on your computer. If you do not have the program, it can be installed from the CD-rom. Then select the file with the language you want, and the Reference book opens.

Your key to using BeoVision MX 8000

Using the Beo4 remote control

Look through the basic principles of the Beo4 remote control and try them out. Each button is explained below.

Refer to Beo4's own Guide for information about how to add extra functions to those shown in the Beo4 display.

TV — The Beo4 display shows the source you have selected, or extra functions available when you press the LIST button

Switch on to TV programs — **TV**

Switch on a connected source and the BeoVision MX 8000 to watch set-top box programs, videotapes or DVDs — **SAT** **V TAPE** **DVD**

Use the number buttons to select programs, Teletext pages, DVD chapters and titles, and CD tracks — **0 – 9**

Enter information in on-screen menus. Press ◀◀ or ▶▶ while e.g. TV is on to select a program Group you have created — ◀◀ ▶▶

Press GO to select your menu items — **GO**

Step up or down through programs or menu items — ▲ ▼

Reveal additional functions in the Beo4 display, such as FORMAT — **LIST**

MENU — Press MENU to call up the main SETUP menu. If you have selected STB as your source, pressing MENU calls up the Set-top Box Controller menu. Press MENU a second time for the main SETUP menu

TEXT — Press to call up Teletext

∧ ∨ — Adjust volume – press the middle to mute sound

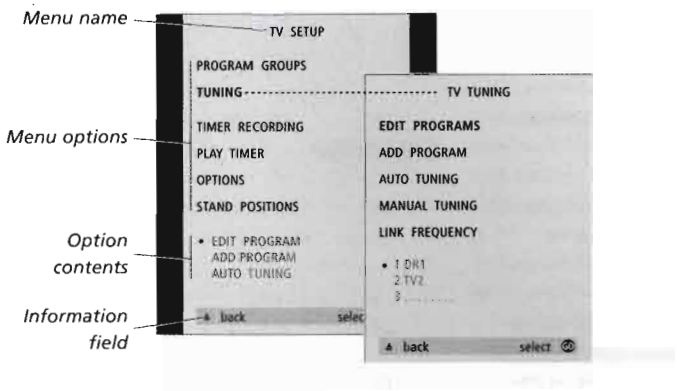
EXIT — Exit on-screen menus

• — Switch BeoVision MX 8000 to standby

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Use the menus

The menus on the BeoVision MX 8000 screen gives you access to a number of different options. When you enter the menu system, the first available menu is the SETUP menu.



TV Press to switch on the television

MENU Press to call up the TV SETUP menu

▲ ▼ Press to move between the different menu options

◀◀ ▶▶ Press to reveal different settings

GO Press to call up a menu or store a setting you have made

EXIT Press to leave the menu system

The on-screen display

The on-screen display keeps you informed of the source you have selected, etc.

This manual was scanned by and available FREE at www.Iconic-AV.co.uk

Watch television

You can find a TV program which is tuned into your BeoVision MX 8000 in four ways...

- By stepping through all tuned programs;
- By using the number keys to key in the number of the program you want;
- By calling up a program list of all the tuned programs;
- By selecting a program Group. Refer to the chapter *Use program Groups* on page 12 for more information.

While watching television you can also adjust picture format and turn the BeoVision to the left or right, if it is equipped with a motorised stand.

Step through tuned programs

To start watching television, press TV on the Beo4 remote control. The television automatically switches on to the last program you watched.

TV	Press to switch on BeoVision MX 8000
▲ ▼	Press ▲ or ▼ to step up or down through the available TV programs
1 – 9	Key in the number of the TV program you want
SAT	Press to switch to for example Set-top box programs

Pressing 0 will swap between the current and previous TV programs.

See list of programs

Choose a source, for example TV, and press and hold GO on the Beo4 remote control to call up a complete list of the available TV programs. You can also call up a program list for Groups of programs.

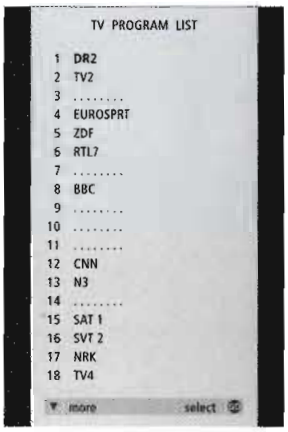
TV **BBC**	Press to switch on the television
GO	Press and hold to call up the TV program list
▲ ▼	Step up or down through the available programs
GO	Press to call up the chosen program, or...
0 – 9	key in the number of the program you want to see

Call up the program list for a specific Group...

TV **BBC**	Press to switch on the television
◀◀ ▶▶ **MY GROUP**	Press ◀◀ or ▶▶ repeatedly to step through your Groups
GO	Press to call up the chosen Group
GO	Press and hold to call up the program list for this Group
◀◀ ▶▶	Press ◀◀ or ▶▶ to see the program lists for all the other Groups

NOTE! Set-top box programs are only available if BeoVision MX 8000 is equipped with a built-in Set-top Box Controller and a set-top box is connected.

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk



The program list for TV is now called up. It provides you with an overview of all your available TV programs.

Groups list... *TV programs selected for a Group also appear in the program lists for all tuned TV programs.*

Adjust the picture format

The picture format you choose is changed on the screen accordingly, either to a 16:9 widescreen picture or a standard 4:3 picture. The picture format you choose is not stored, when you switch to a different program or switch off BeoVision MX 8000, the standard 4:3 picture format is restored.

LIST FORMAT	Press repeatedly until FORMAT appears in the Beo4 display
1 – 2	Press 1 or 2 to select a picture format: FORMAT 1 for a 4:3 picture, or FORMAT 2 for a 16:9 picture

Turn BeoVision MX 8000 to the left or right

If your BeoVision MX 8000 is equipped with the motorised stand, you can turn BeoVision MX 8000 to the left or to the right via Beo4. You can also turn BeoVision MX 8000 manually.

LIST STAND	Press repeatedly until STAND appears in the Beo4 display
◀◀ ▶▶	Press to turn BeoVision MX 8000 either to the left or the right, or
1 – 9	use the number keys to choose a pre-defined position; 1 represents the outmost left position, 9 represents the outmost right position

Refer to the chapter *Settings for TV position* on page 26 for more information about how to preset viewing positions for BeoVision MX 8000.

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Adjust sound

Several sound adjustments possibilities are available in your BeoVision MX 8000.

You can adjust the volume or mute the sound completely at any time.

If programs are broadcasted with different sound types or languages, you can choose between the sound types or languages.

If speakers are connected to your BeoVision MX 8000, you may choose the speaker combination you prefer.

When you switch on BeoVision MX 8000 or one of the sources connected to it, the speakers you may have connected can be cut in or out, depending on what kind of sound suits the source you are using.

Adjust or mute the sound

While you are watching television, you can adjust the sound volume at any time or mute the sound completely.

Press ∧ or ∨ to adjust the volume up or down

Press in the middle of the ∧ and ∨ button to mute the sound

Press ∧ or ∨ again to bring the sound back

Change sound type or language

If different sound types or languages are available, you can store your favourite sound type when tuning in your TV programs. However, it is also possible to choose between sound types or languages when watching a program.

LIST — Press repeatedly until SOUND* is shown in the Beo4 display

SOUND

GO — Press to see the current sound type on your screen

MONO

GO — Press repeatedly to switch to another sound type or language in a multi-language programme

STEREO

EXIT — Press to exit the SOUND function

*In order to display SOUND on Beo4, you must first add it to the Beo4 list of functions. Refer to Beo4's own Guide for further information.

NOTE! Refer to the chapter *Socket panels* on page 16 for more information on how to connect speakers and to the BeoVision MX 8000 CD-rom for more information on surround sound.

This manual was scanned by and available FREE at www.Iconic-AV.co.uk

Adjust speaker balance and choose speaker combination

When you connect loudspeakers to your BeoVision MX 8000, you can adjust speaker balance and choose a speaker combination at any time.

LIST SPEAKER	Press repeatedly until SPEAKER is shown in the Beo4 display
◀◀ ▶▶	Press to adjust the balance between the left and right speakers
1 – 3	Press to select a speaker combination
EXIT	Press to exit the SPEAKER function

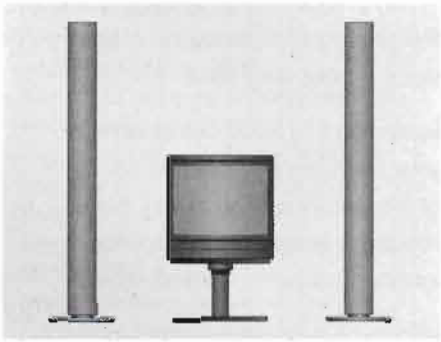
Speaker combinations

SPEAKER 1
Sound in the television speakers only. For programmes with dialogue, e.g. TV news.

SPEAKER 2
Stereo sound in the two external front speakers. The BeoLab 2 subwoofer is active. For music CDs.

SPEAKER 3
The television speakers, external front speakers and the BeoLab 2 subwoofer are active. For TV programmes in stereo.

Refer to the BeoVision MX 8000 CD-rom and the chapter *To choose a speaker combination* for information on presetting a speaker combination.



This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Look up Teletext information

Teletext offers you a wealth of information. BeoVision MX 8000 helps you find it fast.

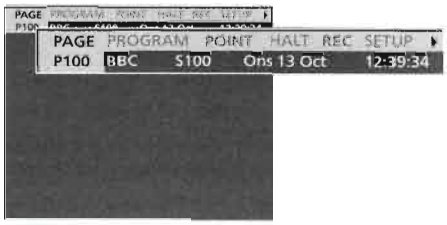
The arrow keys on Beo4, the menu bar at the top of the screen and the highlighted cursor help you move to the page you want in a single step. When you get there, you can pause the turning of subpages to read them at your own pace.

BeoVision MX 8000 can remember your favourite pages, bring you back to the previous page, reveal hidden messages or help you switch to another program's Teletext service.

Via the SETUP feature, you can make as many as 9 favourite MEMO pages on each available Teletext service. Save a page with Teletext subtitles as MEMO page number 9, and Teletext subtitles appear automatically when this program is shown.

Navigate in Teletext

Navigate through Teletext pages by using the menu bar at the top of the Teletext page.



Press **TEXT** to gain access to Teletext and **EXIT** to leave Teletext.

If you press **EXIT** and leave Teletext before the page you want is found, the display TEXT advises you when the page is found. Press **GO** to see the page. Please note that no such notification will appear if you e.g. change programs or leave Teletext by selecting a new source, such as V.TAPE.

To move to a new page...
> Key in the number of the page you wish to see, or...
> press ◀◀ to move the highlighted cursor to PAGE.
> Press ▲ or ▼ to step between pages, and hold to step faster.
> Pressing **GO** steps to index pages (100, 200, 300, etc.).

To switch using visible page references...
> Press ▶▶ to move the cursor on the bar to POINT.
> Press **GO** or ▼ to place the cursor on the page.
> Move the cursor via the arrow keys to a page reference and press **GO**.

To go back to the previous page...
> When you use POINT to step to another page, POINT on the menu bar will change to RETURN.
> Press **GO** while on the new page to go back to the previous page.

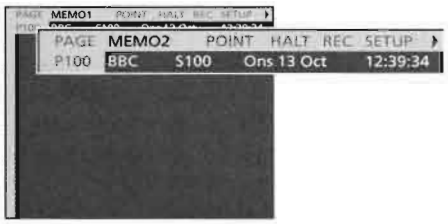
RETURN will only bring you one step back. Go back to other previously viewed pages by using the PAGE or MEMO functions.

To move to another Teletext service...
> Press ▶▶ to move the highlighted cursor to PROGRAM.
If MEMO pages have been created, MEMO will be highlighted when you switch on Teletext. Press ▲ or ▼ while MEMO is highlighted to find PROGRAM.
> Press **GO** to call up a program list.
> Press ▲ or ▼ to find a desired program.
> Press **GO** to switch to another Teletext service.

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Create or delete MEMO pages

Your most frequently viewed Teletext pages can be saved as MEMO pages, making them easier to call up when viewing a Teletext service. You can save 9 favourite MEMO pages.



To stop subpages from turning...

> Press **STOP** to stop subpages from turning, or...
> move the cursor to HALT and press **GO**. HALT will be replaced by a set of four digits.
> Use ▼ and ▲ to step to the subpage you wish to see, or key in its number.
> Press **GO** to restart page turning.

To reveal hidden messages and the like...

> Move the cursor on the bar to ▶.
> Press **GO** to change SETUP to REVEAL.
> Press **GO** again to reveal hidden text on the current page.

To create a MEMO page...

> Find a page you view often.
> Press ◀◀ or ▶▶ to move the cursor along the menu bar to SETUP and press **GO**. The 9 available MEMO slots are shown by number. The first is highlighted.
> Press **GO** to store the current page. The cursor moves to the next available MEMO slot.
> Use the number keys on Beo4 to select the next teletext page you wish to store.
> Repeat the procedure for each page you wish to store.
> To leave the MEMO setup, press ◀◀ or ▶▶ to move the cursor to BACK and press **GO**.

If you would like available Teletext subtitles to appear automatically for a particular program, store the Teletext subtitles page as MEMO page 9.

To delete a MEMO page...

> Press ◀◀ or ▶▶ to move the cursor to SETUP and press **GO**.
> Move the cursor to the MEMO page you wish to delete and press the yellow button.
> Press the yellow button again to confirm.

Use MEMO pages

If you have made favourite MEMO pages, you can step between them directly.

To view MEMO pages...

> Press **TEXT** to call up Teletext.
> Press ▲ or ▼ to move between MEMO pages.
> Press **EXIT** to leave Teletext.

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Use program Groups

If you have stored a lot of programs and want to get to your favourites quickly without going through the list each time, put them in a Group. You no longer need to step through programs you do not use.

Name the Groups after the people who watch them – 'Dad' or 'Mary' – or according to the types of programs included, like 'News' or 'Sports'.

When you have created and selected a particular Group, you only step through the TV or STB* programs belonging to this particular Group. Switch to a different Group to watch a different set of programs or switch from GROUPS to TV to see all the tuned TV programs.

Select programs in a Group

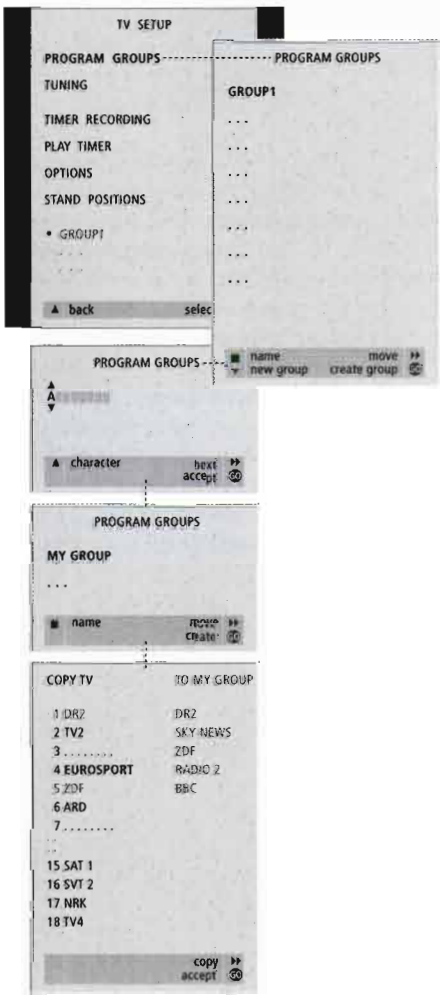
You can gain access to your Groups by activating Groups mode. Press the arrow keys to select the Group you are looking for, then step through the programs in this Group.

TV	Press to switch on the television
◀◀ ▶▶ **MY GROUP**	Move left or right until your groups are displayed
GO **NEWS**	When you find the Group you want, press GO to select your Group
▲ ▼ **1 – 9** **TV 2** **BBC**	Step up or down through the programs in that particular Group, or use the number keys to key in the number of the program you want to see
◀◀ ▶▶ **SPORT** **GO**	Move left or right to switch to another Group – and press GO to call it up

Press and hold GO in Groups mode to view a program list for the current Group.

Create Groups

It is possible to put together 8 different program Groups in BeoVision MX 8000, grouped either by user or by program type. Each Group can contain up to 18 programs. 'Copies' of the same program can be stored in different Groups.



*NOTE! In order to receive set-top box (STB) programs, your BeoVision MX 8000 must be equipped with a built-in Set-top Box Controller and a set-top box must be connected. Refer to the BeoVision MX 8000 CD-rom and the chapter *If you have a Set-top Box Controller* for information on how to create groups of set-top box programs.

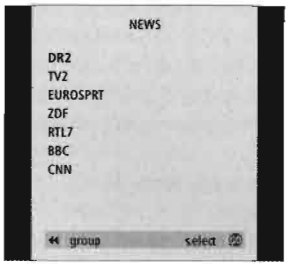
This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Move programs within a Group

You can rearrange the order in which your programs appear within a Group and delete programs in a Group.

> Press **TV** to switch on the television.
> Press **MENU** to call up the TV SETUP menu, PROGRAM GROUPS is already highlighted.
> Press **GO** to call up the PROGRAM GROUPS menu.
> Press ▼ to move the cursor to an empty Group and press the green button to be able to name a new Group.
> Press ▲ or ▼ for characters and ◀◀ or ▶▶ to move to the next or previous character space.
> Press **GO** to store the name, and press **GO** again to be able to copy programs into the new Group.
> Press ▲ or ▼ to find a program you wish to copy to the new Group.
> Press ▶▶ to copy a TV program to your Group.
> Press **GO** to store your Group when you are done copying programs.
> Press ▲ to back up through previous menus or press **EXIT** to exit on-screen menus directly.

NOTE! Set-top box programs cannot be combined with TV programs in the same Group. For more information about how to make STB program Groups, refer to BeoVision MX 8000 CD-rom and the chapter *If you have a Set-top Box Controller*.



> Press **TV** to switch on the television.
> Press **MENU** to call up the TV SETUP menu PROGRAM GROUPS is already highlighted.
> Press **GO** to call up the PROGRAM GROUPS menu.
> Press ▼ to highlight a Group and press **GO** to select it.
> Press ▼ to highlight the program you wish to move or delete.
> Press ▶▶ to move the program out of the list and press ▲ or ▼ to move it to the new position.
> Press ◀◀ to move the program back into the list, or press the yellow button to delete it. When you delete a program in the list, the remaining programs contract.
> If the program changed places with another program, then move this program to a new position.
> Once you have finished moving or deleting programs in a Group, press **GO** to store the Group.
> Press ▲ to back up through previous menus or press **EXIT** to exit on-screen menus directly.

How to set up BeoVision MX 8000

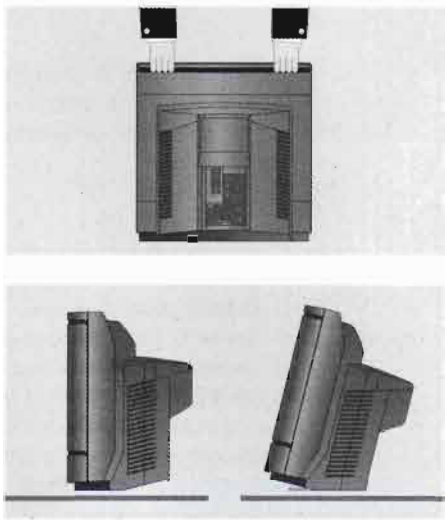
We recommend that you follow the procedure below when you set up your BeoVision MX 8000:

- Unpack BeoVision MX 8000 and place it as illustrated and described to the right;
- Consider the appropriate surroundings for BeoVision MX 8000. Guidelines are included to the right;
- Connect the cables to BeoVision MX 8000 as described on the facing page.

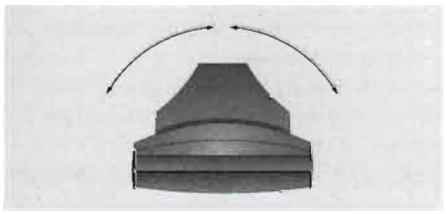
If you have additional equipment to connect, such as a video tape recorder or decoder, then refer to the following pages or refer to the BeoVision MX 8000 CD-rom.

Appropriate surroundings for BeoVision MX 8000

- Always place your BeoVision MX 8000 on a firm and level surface.
- Allow a space of at least 5 cm above and to each side of BeoVision MX 8000 for adequate ventilation.
- Do not place BeoVision MX 8000 in direct sunlight, directly under spotlights or near a dimmer, as this might impede the infrared remote operation of BeoVision MX 8000.
- The BeoVision MX 8000 is designed for indoor use, in dry, domestic environments with a temperature range between 10–40° C (50–105° F).
- Do not place any items on top of BeoVision MX 8000.
- Do not attempt to open your BeoVision MX 8000. Leave such operations to qualified service personnel.



The BeoVision MX 8000 can also be placed on the floor, in an upright position or at a slight tilt backwards.



If your BeoVision MX 8000 is equipped with a motorised stand, make sure that there is adequate space for BeoVision MX 8000 to turn from side to side as shown, when you position your BeoVision.

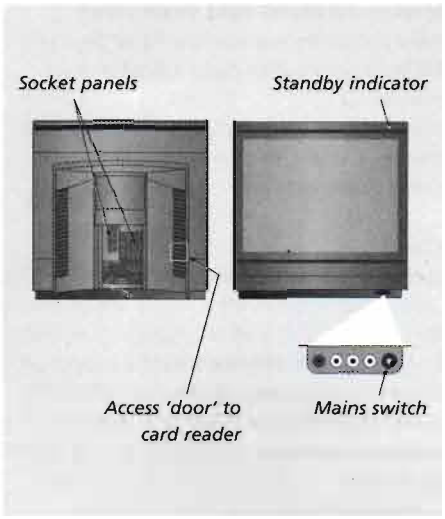
This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

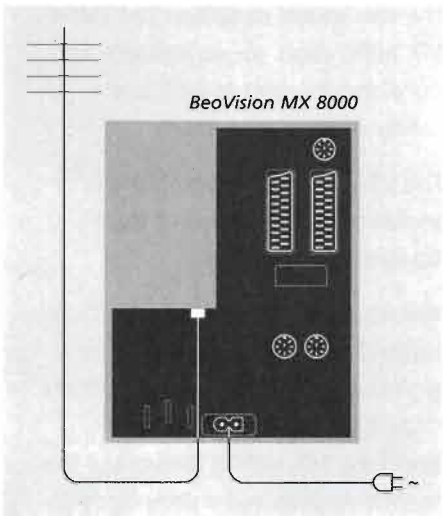
NOTE! Specially designed stands are available for placement of your TV. Contact your Bang & Olufsen retailer for further information.

Refer to the diagram and the graphics imprinted on the socket panel when locating the sockets. The sockets on the rear are explained in detail in *Socket panel on the rear* on page 16.

Secure the cables on the back of BeoVision MX 8000 with the cable band, as illustrated to the far right.

Please note that the supplied mains lead and plug are specially designed for BeoVision MX 8000. If you change the plug or in any way damage the mains lead, it will affect the TV picture adversely!





Aerial connection

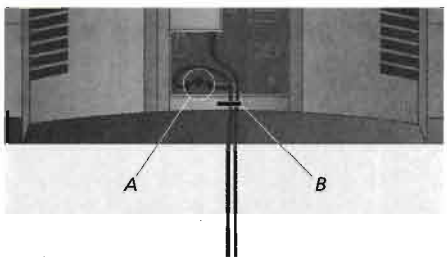
Using an aerial cable, connect your external TV aerial (or cable TV network) to the socket marked TV on the BeoVision MX 8000 socket panel.

If your BeoVision MX 8000 is equipped with the built-in system modulator, you will notice that the TV socket shown in the illustration is occupied, and that there is a second, unoccupied TV socket located just below a socket marked LINK. Connect your external TV aerial to this TV socket instead.

To the mains

Using the mains lead supplied, connect it to the socket on BeoVision MX 8000 marked ~ , and then plug the other end into a wall socket.

Your BeoVision MX 8000 was designed to be left in stand-by mode when not in use. Therefore, to facilitate remote control operation, it is essential that the mains switch is left on (indicated by the tiny red light on the front).



Securing the cables: *You must fasten the mains lead to the BeoVision MX 8000 using the three cable brackets (A) located below the mains socket and fasten all the cables running from the BeoVision MX 8000 with the cable band (B).*

This manual was scanned by and available FREE at www.Iconic-AV.co.uk

Socket panel on the rear

The rear socket panels on BeoVision MX 8000 allow you to connect the signal input cables as well as a variety of extra equipment.

The V.TAPE and AV sockets are available for connection of extra equipment.

Any equipment you choose to connect to these sockets must be registered in the BeoVision MX 8000 CONNECTIONS menu. Refer to BeoVision MX 8000 CD-rom and the chapter *Register extra equipment* for further instruction.

The presence or absence of the sockets depends on which optional extras are built into your BeoVision MX 8000.

Speaker and digital input socket panel
These sockets are only available if your BeoVision MX 8000 has a built-in digital surround sound module.
Refer to the BeoVision MX 8000 CD-rom and the chapter *Loudspeaker setup – surround sound* for further information.

STAND
For connection of a motorised stand.

AV
21-pin socket for AV connection of a second decoder, a DVD player, a set-top box or similar devices. You can also connect other types of auxiliary equipment or an Expander box for further connections.

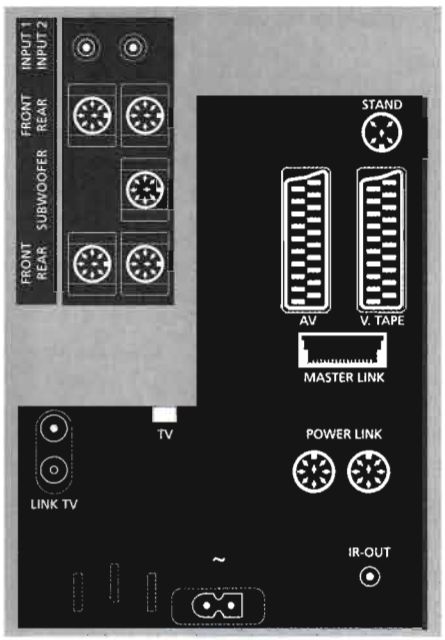
V.TAPE
21-pin socket for the AV connection of a BeoCord V 8000 video tape recorder, a set-top box, a primary decoder or another video tape recorder. You can also connect other types of auxiliary equipment to the V.TAPE socket. If the connected video tape recorder is a BeoCord V 8000, the tuned TV programs etc. will be downloaded to the video tape recorder when the BeoVision MX 8000 TV is tuned in.

MASTER LINK
For connection of a compatible Bang & Olufsen audio system. This socket is only available if your BeoVision MX 8000 is equipped with the Master Link module.

The socket is also used for BeoLink distribution of sound and picture throughout the house.

LINK TV
Aerial output socket for distribution of video signals to other rooms. This socket is only available if your BeoVision MX 8000 is equipped with the built-in system modulator.

TV
Aerial input socket for your external TV aerial (or cable TV network) signal. If your BeoVision MX 8000 is equipped with the built-in system modulator, connect your external TV aerial to the TV socket located below the socket marked LINK.



POWER LINK
For connection of external Bang & Olufsen loudspeakers.

~
Socket for connection to the mains.

IR OUT
For connection of a set-top box. (Only available when a Set-top Box Controller is built into your BeoVision MX 8000).

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Close-up operation and socket panel

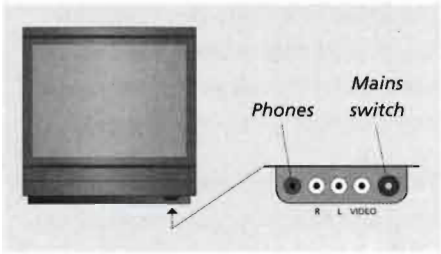
BeoVision MX 8000 has a small close-up operation and socket panel on the front, just below the television screen.

Here you can switch the system on or off completely. If you switch the system off, the indicator light on the front of BeoVision MX 8000 will also be switched off.

You can connect headphones or a Camcorder via the close-up socket panel on BeoVision MX 8000.

Switch the mains on or off

If you wish to switch off the mains completely to your BeoVision MX 8000, you can do it by pressing the mains switch on the close-up operation and socket panel on the right-hand side of BeoVision MX 8000, just below the screen. When switched off like this, the red standby light on the front disappears, and the BeoVision MX 8000 can not be operated.



Connect headphones or Camcorder

Connect headphones to BeoVision MX 8000 via the socket marked PHONES on the right side of the close-up operation and socket panel. Connect a Camcorder to BeoVision MX 8000 via the L, R and VIDEO sockets.

To connect headphones...
Connect headphones to BeoVision MX 8000 via the PHONES socket on the close-up operation and socket panel. Sound from the speakers is muted when headphones are connected and activated again when the headphones are disconnected.

To connect a Camcorder...
Connect your Camcorder to BeoVision MX 8000 via the sockets marked L, R, and VIDEO on the close-up socket panel. L and R refers to the audio signal, left and right speaker channel respectively, whereas VIDEO is for the video signal.

To watch your Camcorder recordings...
> Connect your camera.
> Press **TV** to switch on the television.
> Start playback on your Camcorder. Pictures automatically appear on the screen.
> Operate your recordings via your Camcorder.

To select the Camcorder via the Beo4 remote control...
> Press **LIST** repeatedly until CAMCORD* is shown in the Beo4 display.
> Press **GO** to select the Camcorder.

To record your Camcorder recordings...
> If a BeoCord V 8000 is connected: Connect your Camcorder and start playback as described earlier.
> Press the **RECORD** button on Beo4 twice to start recording.

Choosing another source or switching off BeoVision MX 8000 during recording from a Camcorder will disrupt recording. It is not possible to view programs during recording.

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

*NOTE! In order to display CAMCORD on Beo4, you must first add it to the Beo4 list of functions. Refer to Beo4's own Guide for further information.

First-time setup of BeoVision MX 8000

The setup procedure described here is activated only when the BeoVision MX 8000 is connected to the mains and switched on for the first time.

This procedure involves menu language selection, automatic tuning of TV programs, determination of the centre position for a motorised stand, if your BeoVision MX 8000 is equipped with such a stand and registration of any extra equipment you may have connected.

Part of the procedure is performed automatically, but you must initiate the stand adjustment and the automatic tuning of programs, determine if the equipment you have connected to BeoVision MX 8000 is registered correctly in the CONNECTIONS menu, edit the information in this menu if necessary, and accept the settings once they are correct.

Select menu language

The first time you switch on your BeoVision MX 8000, you must select which language you want all the menus to be displayed in.

The menu language setup appears. If you wish to change the menu language at a later date, you can find the item under OPTIONS in the TV SETUP menu.

> Press **TV** to switch on the television. The language menu appears.
> Press ▲ or ▼ to move between the displayed languages, if necessary.
> Press **GO** to store your choice.

Store all programs and settings

When you have selected the menu language, a menu for program tuning automatically appears on the screen. Follow the instructions on the screen and press GO to start tuning. All programs are now tuned in automatically.

When the menu for auto tuning appears, the prompt CHECK AERIAL CONNECTION appears to remind you to check that your TV aerial is properly connected.

> Press **GO** to start auto tuning. BeoVision MX 8000 tunes in all available programs.

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Register extra equipment before auto tuning

If a video tape recorder, decoder or any other extra equipment is connected to your BeoVision MX 8000, the connection is detected by BeoVision MX 8000. You are given an opportunity to check and confirm the registration of the equipment involved.

> If necessary, press ◀◀ or ▶▶ to select the options that correspond to what you have connected to the V.TAPE socket.
> Press ▲ or ▼ to step between menu items: V.TAPE and AV.
> Press GO to store this setup.

Determine the centre position for the television

If your BeoVision MX 8000 is equipped with the optional motorised stand, the STAND ADJUSTMENT menu will appear on the screen. Once the centre position has been determined, you can select your favourite positions for when the television is switched on and in standby.

When the STAND ADJUSTMENT menu appears...

> Make sure that there is enough room for the television to turn to the right and left.
> Press GO to start stand adjustment.
> If the adjustment is interrupted the text 'ADJUSTMENT FAILED' appears on the screen. Remove obstacles preventing the television from turning, and press GO to start adjustment again.
> Once adjustment is complete, the text 'ADJUSTMENT OK' appears and then the STAND POSITIONS menu appears.
> To store a stand position for when BeoVision MX 8000 is switched on, press ◀◀ or ▶▶ to turn BeoVision MX 8000 and place it according to your viewing position.
> To store a stand position for when the television is switched to standby, press ▼ to move to TV STANDBY.
> Press ◀◀ or ▶▶ to turn BeoVision MX 8000 and place it as you wish.
> Press GO to store your positions.

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

NOTE! Refer to the chapter *Settings for TV position* on page 26 for further information on stand positions.

Edit programs – move, name, delete or tune

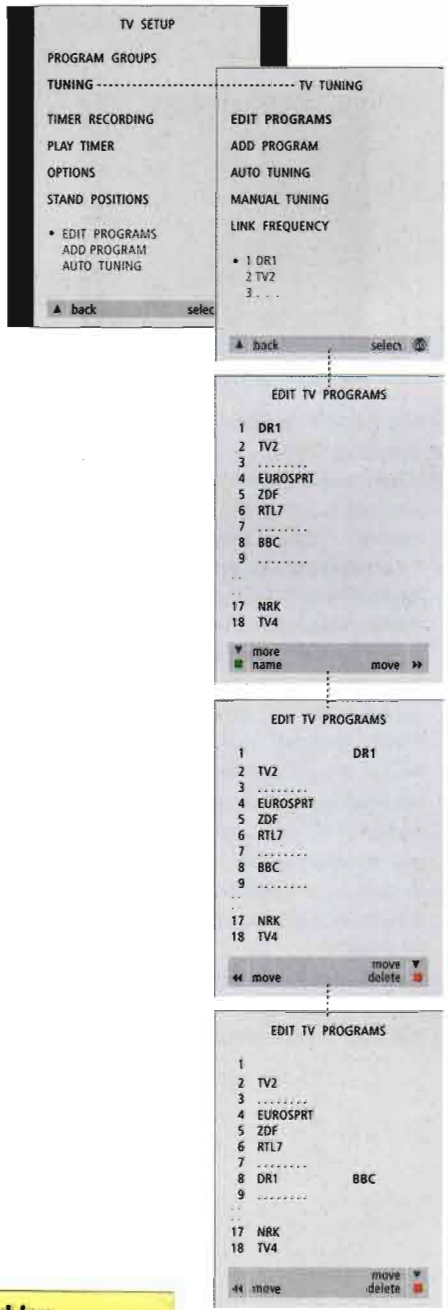
If automatic tuning of all programs has not stored the programs on your preferred program numbers or has not named all the stored programs automatically, you can rearrange the order in which the programs appear and provide them with a name of your own choice.

If the tuned programs require additional editing such as fine tuning or any specific settings regarding decoder etc., use the MANUAL TUNING menu.

To be able to edit tuned TV programs, make sure you choose TV as your source first.

Move tuned programs

Once automatic tuning of programs has been completed, the EDIT PROGRAMS menu appears automatically and you can move your tuned programs.



> Press **TV** to switch on the television.
> Press **MENU** to call up the TV SETUP menu and press ▼ to highlight TUNING.
> Press **GO** to call up the TV TUNING menu. EDIT PROGRAMS is already highlighted.
> Press **GO** to call up the EDIT PROGRAMS menu.
> Press ▼ or ▲ to select the program you wish to move.
> Press ⏩ once to be able to move the program. The program is now moved out of the list.
> Press ▼ or ▲ to move the program to the desired program number.
> Press ⏪ to make the program move back into the list or change places with the program which occupies the desired program number.
> Now, move the program which you changed places with to an empty program number or to a number already occupied and repeat the procedure.
> When you have moved the relevant programs, press ▲ to back up through all menus, or press **EXIT** to exit on-screen menus.

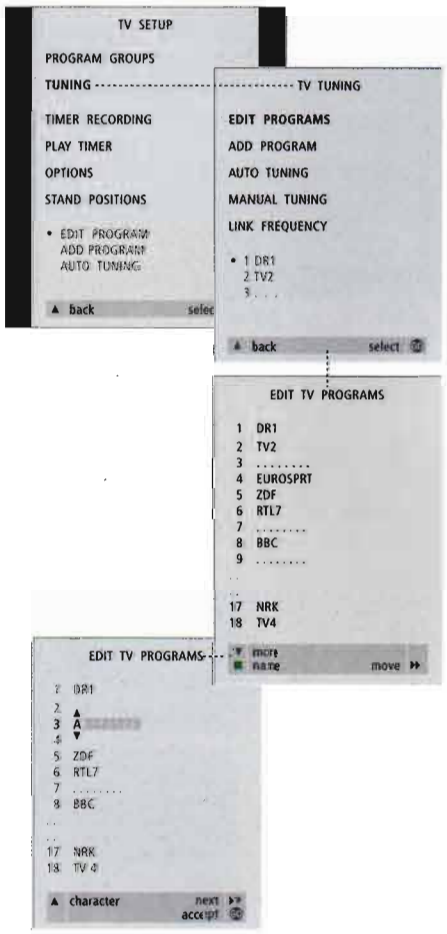
and available FREE at www.Iconic-AV.co.uk

Name tuned programs

Once the automatic tuning of programs has been completed, the EDIT PROGRAMS menu appears and you can name the TV programs that have been tuned in.

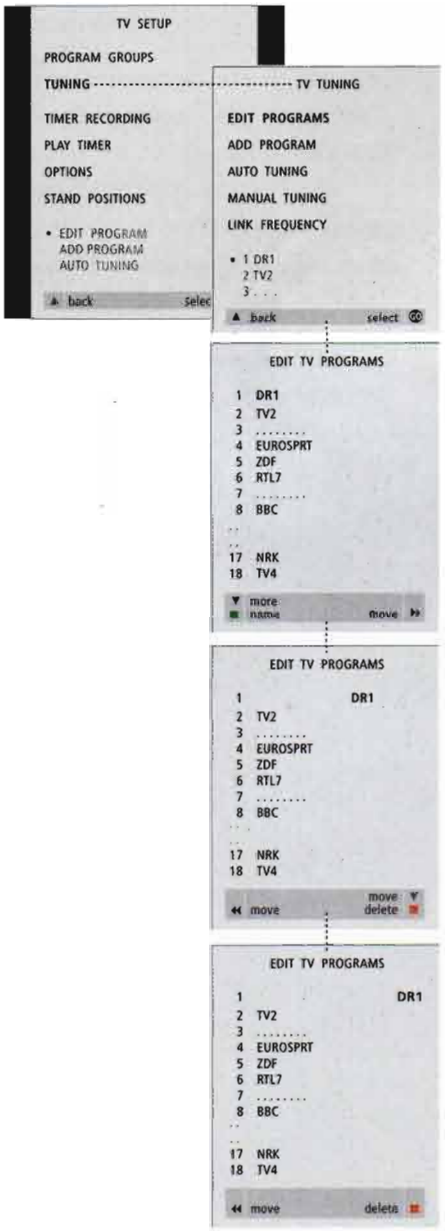


> Press **TV** to switch on the television.
> Press **MENU** to call up the TV SETUP menu and press ▼ to highlight TUNING.
> Press **GO** to call up the TV TUNING menu. EDIT PROGRAMS is already highlighted.
> Press **GO** to call up the EDIT PROGRAMS menu.
> Press ▼ or ▲ to select the program you wish to name.
> Press the green button to be able to name the program. The naming menu is now activated.
> Press ▼ or ▲ to find the individual characters in the name.
> Press ⏩ to move to the next character. As you move, BeoVision MX 8000 suggests possible names – but you can still use ▼ or ▲, and ⏪ or ⏩ to enter or edit all the characters in the name you choose.
> If necessary, repeat the procedure and name other program numbers.
> When you have named the relevant programs, press **GO** to accept your edited list or press **EXIT** to exit on-screen menus.

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Delete tuned programs

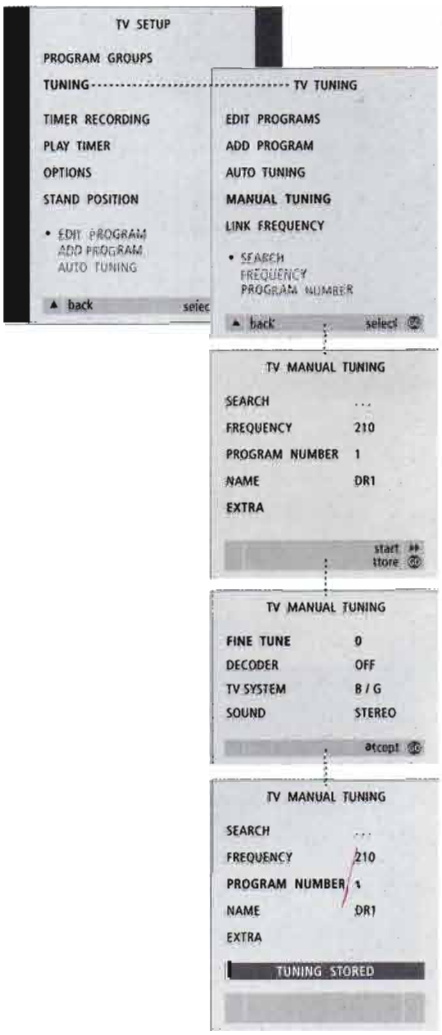
Once the automatic tuning of programs has been completed, you can delete your unwanted tuned TV programs.



> Press **TV** to switch on the television.
> Press **MENU** to call up the TV SETUP menu and press ▼ to highlight TUNING.
> Press **GO** to call up the TV TUNING menu. EDIT PROGRAMS is already highlighted.
> Press **GO** to call up the EDIT PROGRAMS menu.
> Press ▼ or ▲ to move to the program you wish to delete.
> Press ⏩ to move the program out of the list.
> Press the yellow button to be able to delete the program – the program is then shown in red.
> Press the yellow button to finally delete the program, or press ⏪ twice to move the program back into the list.
> When you have deleted the relevant programs, press **EXIT** to exit on-screen menus.

Adjust tuned TV programs

You can manually edit aspects of your tuned TV programs. You can set DECODER to ON, choose a specific type of sound or language or tune in a local program separately.



This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

> Press **TV** to switch on the television.
> Press **MENU** to call up the TV SETUP menu and press ▼ to highlight TUNING.
> Press **GO** to call up the TV TUNING menu and press ▼ to highlight to MANUAL TUNING.
> Press **GO** to call up the MANUAL TUNING menu.
> Press ▼ or ▲ to move to the menu option you wish to change.
> Press ▶▶ or ◀◀ to change the information for the menu option you have chosen.
> If you choose NAME, then press the green button to start the naming procedure. Use ▼ or ▲ and ▶▶ to enter the characters in the name you choose.
> To call up the extra TV MANUAL TUNING menu, move to EXTRA and press **GO**. Now fine tune if relevant, or select type of sound (decoder input and TV system if relevant).
> When you have finished editing, press **GO** to accept the settings.
> Press **GO** to store the adjusted program.
> Press **EXIT** to exit on-screen menus.

If the item SYSTEM appears on the menu, then make sure that the correct broadcast system is displayed before you begin tuning:

B/G...	for PAL/SECAM BG
I...	for PAL I
L...	for SECAM L
M...	for NTSC M
D/K...	for PAL/SECAM D/K

If programs are broadcasted with two languages and you want both languages, you can store the program twice, once with each language.

Re-tune or add programs

There are two ways to tune in TV programs:

- Let BeoVision MX 8000 tune in all available programs automatically;
- Update your tuning – if programs have been moved to a different frequency or new programs are available, they will be tuned in as well.

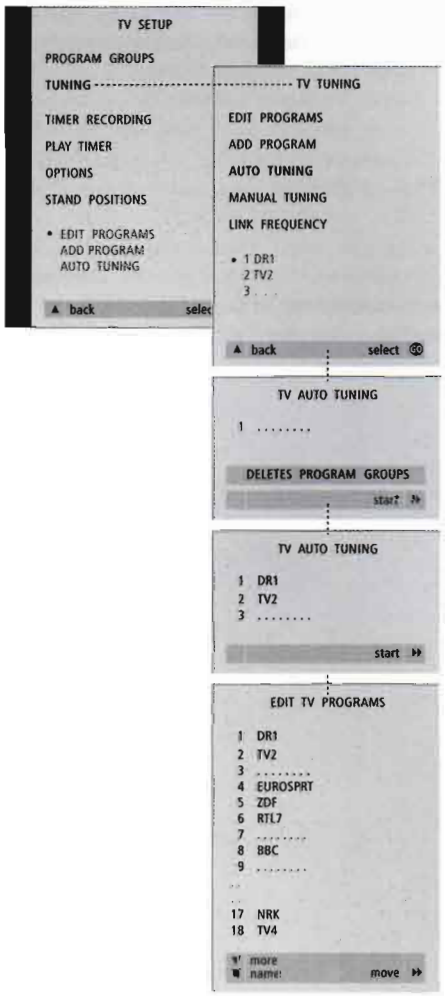
You can edit the tuned programs by making them appear in a different sequence, providing them with a different name or deleting programs. Refer to pages 20–22 for further instruction.

If you wish to adjust the tuning of the programs tuned in, then use the MANUAL TUNING menu to do so. Refer to page 23 for further instruction.

Re-tune via automatic tuning

You can re-tune all your TV programs by letting BeoVision MX 8000 tune in all the programs automatically. Select TV as your source before you start tuning.

Please note: If you re-tune all your TV programs, all the Groups and TV program settings you have made will disappear!

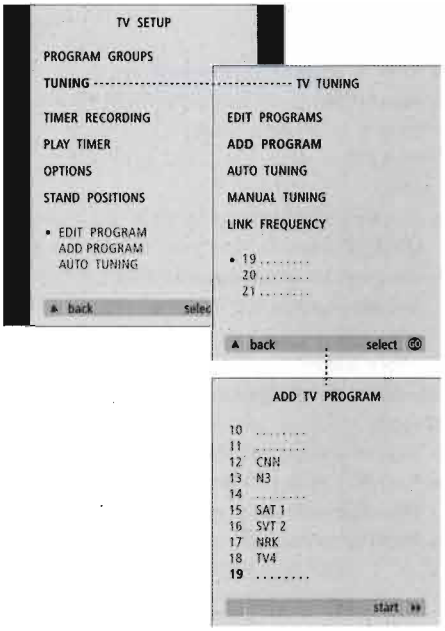


> Press **TV** to switch on the television.
> Press **MENU** to call up the TV SETUP menu and press ▼ to highlight TUNING.
> Press **GO** to call up the TV TUNING menu and press ▼ to highlight AUTO TUNING.
> Press **GO** to call up the AUTO TUNING menu.
> Press ⏩ to start auto tuning.
> Once auto tuning is completed, the EDIT PROGRAMS menu appears. You can then rearrange the program order, delete programs or rename them.

This manual was scanned by
and available FREE at www.Iconic-AV.co.uk

Add a new TV program

You can add a new program or update a tuned program which for example has been moved. Select TV as your source before you start update tuning.



> Press TV to switch on the television.
> Press MENU to call up the TV SETUP menu and press ▼ to highlight TUNING.
> Press GO to call up the TV TUNING menu and press ▼ to highlight ADD PROGRAM.
> Press GO to call up the ADD PROGRAM menu.
> Press ▶▶ to start. New programs are added automatically as they are found.
> When tuning is completed and new programs have been added, the EDIT PROGRAMS menu appears. You can then rearrange the program order, delete programs or rename them. The cursor highlights the first new program of those just added to the list.

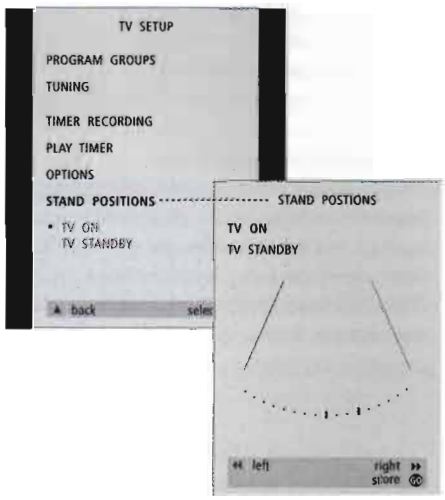
Settings for TV position

If your BeoVision MX 8000 is equipped with the optional motorised stand, you can turn it via the Beo4 remote control. You can also store positions for the television to turn to when it is switched on and when it is switched to standby. You can also turn your BeoVision MX 8000 manually.

Set a position for BeoVision MX 8000 to turn to

You can set a position for BeoVision MX 8000 to turn to when you switch it on and off. You can adjust the angle of BeoVision MX 8000 both manually and via the Beo4 remote control.



> Press **TV** to switch on the television.
> Press **MENU** to call up the TV SETUP menu and press ▼ to highlight STAND POSITIONS.
> Press **GO** to call up the STAND POSITIONS menu.
> To store a stand position for when the BeoVision MX 8000 is switched on, press ◀◀ or ▶▶ to turn BeoVision MX 8000 and place it according to your viewing position.

To store a stand position for when the BeoVision MX 8000 is switched off and in standby...

> Press ▼ to move to TV STANDBY.
> Press ◀◀ or ▶▶ to turn BeoVision MX 8000 and place it as you wish.
> Press **GO** to store your positions.

Note! Refer to page 19 for information about first time installation of the motorised stand.

This manual was scanned by and available FREE at www.iconic-AV.co.uk

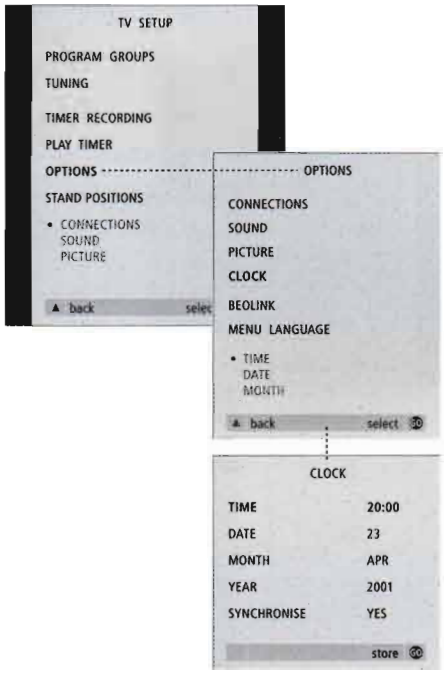
Set the time and date

If your BeoVision MX 8000 is equipped with the optional Master Link module, you can enter settings for the built-in clock.

When you preset BeoVision MX 8000 to switch itself on or off at a particular time, the clock ensures that this feature is switched on and off at the right times.

If the clock is not updated in the transition between summer and winter time, simply select the program with which you originally synchronised the clock.

The simplest way to set the clock is to synchronise it with a tuned TV program's Teletext service via the CLOCK menu. It is only possible to synchronise the clock with the Teletext service offered by the program you are watching. If a Teletext service is not available, you can set the clock manually.



> Press **TV** to switch on the television.
> Press **MENU** to call up the TV SETUP menu and press ▼ to highlight OPTIONS.
> Press **GO** to call up the OPTIONS menu and press ▼ to highlight CLOCK.
> Press **GO** to call up the CLOCK menu.
> Press ◀◀ or ▶▶ to see your choices for each item.
> Press ▲ or ▼ to move through menu items. It is only necessary to enter the time manually if SYNCHRONISE is set to NO.
> Press **GO** to store your clock and calendar options, or **EXIT** to leave all menus.

Switch BeoVision MX 8000 on or off automatically

If your BeoVision MX 8000 is equipped with the optional Master Link module, you can make it switch itself on or off automatically by programming a Timer. If you have connected an audio system or another Bang & Olufsen television to BeoVision MX 8000 with a Master Link cable, you can program these systems to switch themselves on or off as well.

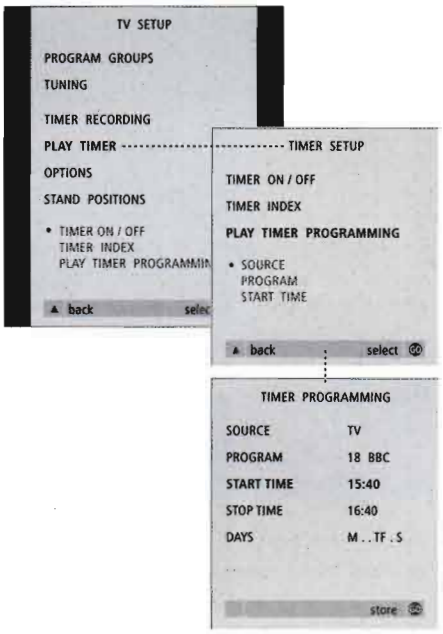
You can preset the Timer to switch BeoVision MX 8000 on or off at the same time and day from week to week. You can enter as many as six Timer settings, and call up an on-screen index of Timer settings you have entered. From this index, you can edit or delete your Timer settings.

Make sure that the built-in clock is set to the correct time. Refer to *Set the time and date* for further information. To see how to program your system to start and stop recording automatically, refer to the BeoVision MX 8000 CD-rom and the chapter *If you have a BeoCord V 8000*.

Timed play and timed standby

Preset BeoVision MX 8000 for timed play if e.g. there is a program you do not want to miss, or if you want a morning wake-up call. Preset BeoVision MX 8000 for timed standby if e.g. you want to make sure BeoVision MX 8000 is switched off when you leave for work in the morning.

Before you start...
If you have connected a Bang & Olufsen audio or video product to BeoVision MX 8000 with a Master Link cable, and you wish to program this product to be switched on or off, make sure to switch on the Play Timer in the connected product! Refer to the Guides enclosed with your audio or video product.



The system writes:

M...	Monday
T...	Tuesday
W...	Wednesday
T...	Thursday
F...	Friday
S...	Saturday
S...	Sunday

To switch on the Play Timer...

> Press **MENU** to call up the TV SETUP menu and press ▼ to highlight PLAY TIMER.
> Press **GO** to call up the PLAY TIMER menu. TIMER ON/OFF is already highlighted.
> Press **GO** to call up the TIMER ON/OFF menu.
> Press ◀◀ or ▶▶ to reveal ON.
> Press **GO** to store the setting.

To enter settings for timed play or timed standby...

> Press **MENU** to call up the TV SETUP menu and press ▼ to highlight PLAY TIMER.
> Press **GO** to call up the PLAY TIMER menu and press ▼ to highlight PLAY TIMER PROGRAMMING.
> Press **GO** to call up the TIMER PROGRAMMING menu.
> Press ▲ or ▼ to move through the menu items.
> Use the number keys to key in information or press ◀◀ or ▶▶ to view your choices for each item. When DAYS is highlighted, press ▶▶ once to be able to move through the days, press ▲ or ▼ to remove a day you do not want, and press ▶▶ to move to the next day. To move back to a previous day, press ◀◀. When the weekday(s) you want are displayed, press **GO** to accept the day(s).
> When you have filled in the required information, press **GO** to store your timer settings, or **EXIT** to leave all on-screen menus.

NOTE! If your BeoVision MX 8000 is set up in a link room, Timer programming must be done via your main room system.

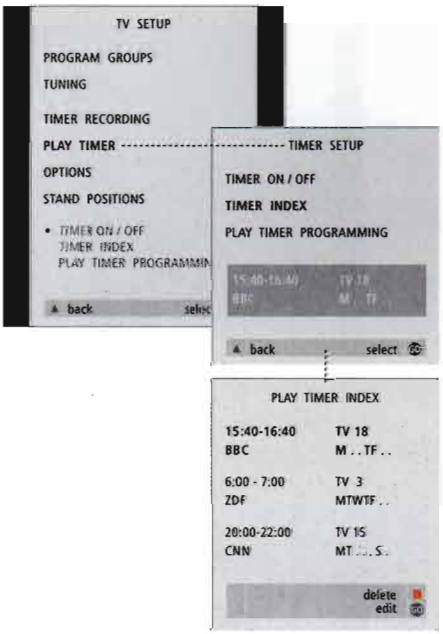
and available FREE at www.Iconic-AV.co.uk



To view, edit or delete your Play Timer settings...

> Select TIMER INDEX from the TIMER SETUP menu to call up your list of Timer settings. The first Timer setting in the list is already highlighted.

> Press ▲ or ▼ to move the cursor to a Timer setting you wish to edit.

> To edit a setting, press GO and follow the procedure described to the left.

> To be able to delete a selected setting, press the yellow button.

> If you change your mind, press ◀◀ to move the setting back into the list. You can also press EXIT to exit all menus.

> Press the yellow button a second time to delete the setting.

Looking after BeoVision MX 8000

Normal maintenance, such as cleaning the BeoVision MX 8000, is the responsibility of the user. To achieve the best result, follow the instructions included.

Cleaning BeoVision MX 8000

Regarding surfaces...
Wipe dust off the surfaces using a dry, soft cloth. If necessary, remove grease stains or persistent dirt with a lint-free firmly wrung cloth, dipped in a solution of water containing only a few drops of mild detergent, such as washing-up liquid.

About the contrast screen...
If your BeoVision MX 8000 is equipped with a contrast screen with anti-reflection coating, you must use a mild window cleaning fluid to clean the screen. To retain the optimum performance of the screen, make sure that no streaks or traces of the cleaning fluid are left on the screen.

NOTE! If the front screen glass should crack or chip, or if it should be damaged in any other way, it must be replaced immediately as it could otherwise cause bodily harm. Contact your Bang & Olufsen retailer.
